SUMMARY

Front-end/Full Stack Web Developer with a passion to create artistic and visually unique websites for clients. Graduated with a certificate in Full Stack Web Development from the University of Arizona.Known for creating unique ideas, taking an open approach to trying new things, as well as conscientious design for apps. Strengths include efficiently collaborating in group settings, taking the lead when there is no sense of direction, and communicating effectively to fellow coworkers when needing clarification. Recently I worked on the back end of a project using Sequelize and MySQL, as well as contributed my artistic skills to create custom icons with Adobe Photoshop for the front end.
